

# *International Campaign against Dictatorship in Togo and other African countries*

## **Call for support**

Dear friends, dear Sir or Madam,

We need your solidarity in the fight against the deportation of the Togolese dissident Alassane Moussbaou and for the campaign work of Togolese and other African refugee activists. Alassane is kept at the JVA Bützow since December 2, 2005. A first effort to deport him has successfully been stopped. A broader public supports the call for his release and protection against deportation. Nevertheless, the authorities and politically responsible persons keep up their plan to deliver Alassane to his persecutors, the RPT regime in Togo.

Further information and calls for support can be found under: [www.thecaravan.org](http://www.thecaravan.org)

Our information campaign and legal support will go on and continue to cause expenses. Until now the legal expenses have amounted to 1200 Euro, and our public campaign has cost us several hundreds of Euro. Another cost factor are traveling expenses especially for refugee activists who have to travel to events and demonstrations. The group of supporters was able to pay parts of this amount out of their own pockets. But it just isn't enough. We seriously need money and call for donations!
