Central Committee

## Urgent Appeal

It has become a great concern to us that our Central Committee Treasurer, Mr. Shrestha Gopal a wellknown asylum seeker is caught by the German authorities on 7<sup>th</sup> of November from the Auslanderbehörde of Gutersloh Kris.

At present the royal fascist dictator of Nepal King Gyanendra backed by imperialism is launching the campaign of genocide, arbitrary mass arrests, torture, biggest number. of disappearances in the world and the rape and gang rapes. Thousands of people have been murdered in the captivity propagated as fake encounters. Gross violation of human rights and the extreme danger for the public life based on the political belief forced thousands of people to hide or to flee the home.

By controlling all the democratic rights from the people royal dictator of Nepal has not only terrorized whole the nation but the Nepalese residing in other parts of world.

INSOF, the democratic organisation active from past 5 years supports the Nepalese democratic Movement and widely supported Maoist Peoples War. We protest against the extra judicials killings, gang rapes, gennocides and other rights. We also work for the rights of Nepalese and others residing here in Germany. Due to our activites fatricidal government of Nepal has banned our website [www.insof.org](http://www.insof.org) and is spying our activities and offering bribe to different people to provide the information about our organisation blaming as a Maoist organisation.

In this context, the arrest of our Treasurer in the name of deportation and plan to handover the Nepalese Fascist state has become the great concern not only to the Nepalese but for others too. Deportation to Mr. Shrestha is to send him to kill or make disappear or send him in prison at present.

It is not only criminal to deport in the hand of Nepali Nazi Gyanendra but also to co-operate in the internal matter and conflict of Nepal by handing over genuine political activist on the basis of his democratic believes.

So, we urgently appeal to all the human rights organisation, german government, medias and whole the community to stop Mr. Shrestha Gopal's deportation and unconditional release.
